Banská Bystrica, Slovakia

1st Announcement

Conference supported by International Visegrad Fund (<http://visegradfund.org>).

INVITATION

Dear Ladies and Gentlemen,

After successful transition from analogue to digital terrestrial TV broadcasting in the whole Central Europe, similar process in audio broadcasting is also expected in near future. Representatives of telecommunication research and scientific institutions from all Visegrad Four countries has the pleasure to invite you to the conference, which will deal with opinion of V4 countries on various aspects of digitisation. Speakers of high repute from international organisations outside V4 countries will explain advantages of on-going processes and recommended approaches.

SESSIONS

- Why is it important to go to digital?
- Legislation, regulation
- Economical aspects of digitisation
- Role of public broadcasters in the implementation process
